NOTE—Contn. Sheet

5) Returned with compliments to the secretary to Government, Local and -- Legislative Departments.

Re. the design, it is necessary to observe that the rear bed rooms have no windows at all. It is essential that there should be at least one window in each room in the end wall, in which case, it is necessary to shorten the bath rooms by omitting the octagonal portions.

2. The height of the main building may be reduced with advantage so that the roof may be in continuation of the verandah roof. Thi will improve the appearance and the building will be in cottage style; cornice in front gables may be omitted, being unnecessary and eves projected, instead, as this will be more in keeping with the treatment of the other parts.

3. The stables measuring only 5' x 7' are too small and are reduced to two instead of three chambers.

The estimate as corrected and scrutinized in the light of the above observations --- reduces itself to Rs. 11970 against Rs. 12200.

OFFICE OF THE DEPUTY COMMISSIONER 3780 7 SEP. 1925 HASSAN

Through the Deputy Commissioner, Hassan District.

LB 32-25-6

Sir,

In forwarding herewith the file of correspondence ending with the Hassan Division Executive Engineer's No. 323, dated 10th April 25, enclosing the duly scrutinised plan and an estimate for Rs 12,200 for constructing a musafirkhana at Ramanathapur in the Arkalgud Taluk, together with a copy of the resolution passed by the District Board, at its meeting held on the 8th August 25 finally approving of the estimate, I have the honor to state as follows:-

After a very careful consideration, the Board came to the conclusion that the construction of the musafirkhana at the place is very essential in view of the fact that the place is one of the most sacred in the State, attracting a large number of pilgrims of all creeds, throughout the year. The site selected for the construction of the musafirkhana is an ideal one, having been situated on an elevated ground, at the junction of the two roads-Frazerpet-Ramanathapura and Hassan-Periyapatna roads-and very near the lands acquired for the location of the extension.

The design for the building has been specially got up and provides for the main building with four rooms together

with bath rooms, one hall, a wide varandah in front, a vegetarian kitchen block of two sets of rooms. as also one out house consisting of a non-gegetarian kitchen, a motor shed, a store room and three stables.

A well specially sanctioned out of drinking water wells fund which is being sunk close by so as to serve the new extension inaugurated by Mushir-Ul-Mulk Mir Humza Husein, Esq., B.A., B.L., First Member of Council, in connection with the Flood Damages at Ramanathapur, is progressing rapidly and fresh water is tapped therein, and there is ten feet of water in it now.

The foundation stone for this building was laid on 23rd. August 24, by Mushir-Ul-Mulk Mir Humza Husein, Esq.. B.A. B.L., the then 1st Member of Council./ Further, a sum of Rs 5000 has been provided for the purpose, in the budget estimates of the District Board for the current year.

I, therefore, request that you will be so good as to kindly obtain early sanction of the Government to the said estimates, the cost being met out of Rs 5000 for the present, provided for the purpose, under B.P.W. executed by the Civil Department, in the current year's District Board budget estimates.

I have the honor to be,

Sir,

Your most obedient servant.

President,
District Board, Hassan.
